

THE VISION

A person is sitting on the grass, leaning against the trunk of a large tree on the left. They are wearing a dark jacket, black pants, and white sneakers with blue stripes. In the background, across a body of water, is a dense city skyline with many skyscrapers. The sky is overcast with grey clouds. Bare tree branches are visible in the upper part of the frame.

**NETWORK.
FAIL, FAST.
DON'T CARE.**

A woman with long brown hair, wearing a brown tank top and a pink shirt tied around her waist, is sitting on a rocky outcrop. She has her arms outstretched to the sides and is smiling. The background is a vast, green mountain landscape with a winding road visible in the distance.

**EVERYTHING IS
POSSIBLE.**

DARE.

Welcome to Pioneers into Practice

We're looking for the next generation of climate innovators; could this be you?

Are you a professional who wants to shape the world's next economy? Would you like to create new products and services to boost the low carbon economy? Ready to step outside your comfort zone and look at things differently? We invite aspiring pioneers and potential hosting organisations to apply to Climate-KIC's professional mobility programme Pioneers into Practice.

Operating in fifteen European locations, the Pioneers programme runs from May through to November and consists of a 4-6 week placement (domestic or international), bespoke transitions thinking & systems innovation mentoring delivered through a structured workshop programme and online training.

On this site you can find more information about the programme including participating locations, programme timeline, your local contact, upcoming events and most importantly how you can apply!

A*STAR Research Attachment
Programme (ARAP)

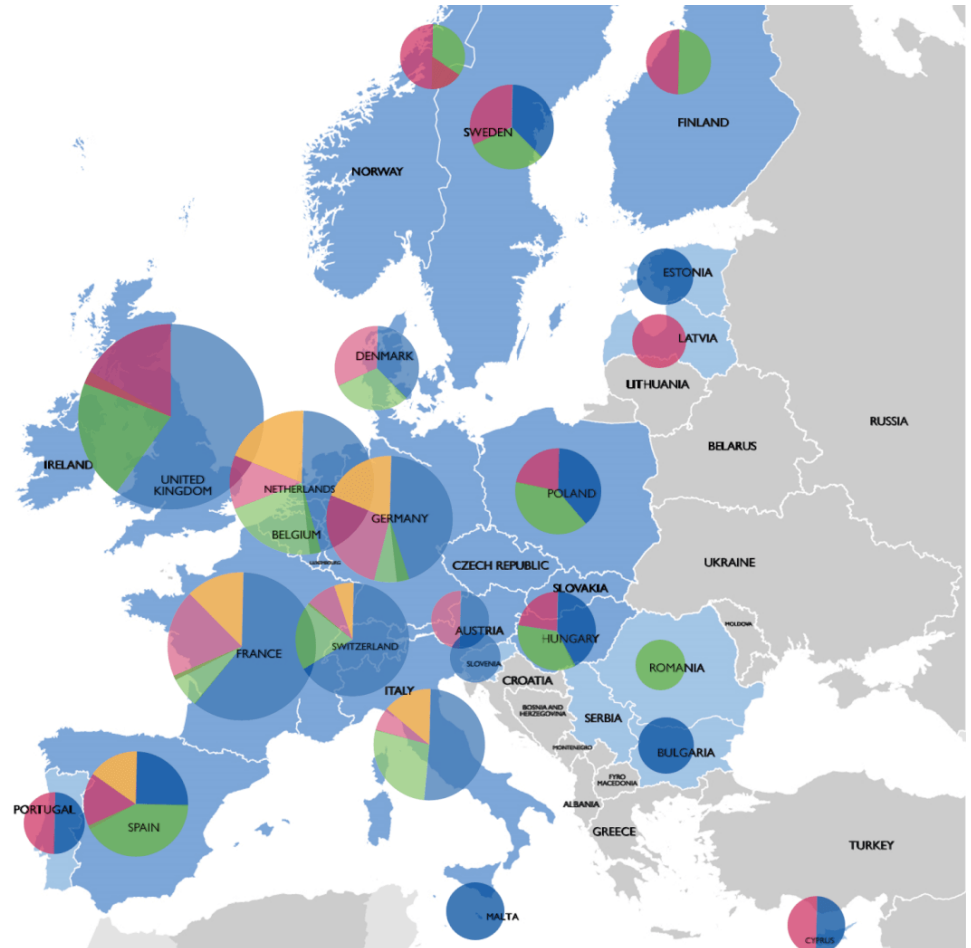

SINGAPORE INTERNATIONAL GRADUATE AWARD (SINGA)

The Singapore International Graduate Award (SINGA) is a collaboration between the Agency for Science, Technology & Research (A*STAR), the Nanyang Technological University (NTU), the National University of Singapore (NUS) and the Singapore University of Technology and Design (SUTD).

PhD training will be carried out in English at your chosen lab at A*STAR Research Institutes, NTU, NUS or SUTD. Students will be supervised by distinguished and world-renowned researchers in these labs. Upon successful completion, students will be conferred a PhD degree by either NTU, NUS or SUTD.

Singapore is the gateway to some of the fastest-growing economies in the Asia Pacific region. And with SINGA, you can pursue your PhD education in Singapore, establish global links and take your research career to greater heights.

Potrebno najmanje 2 godine radnog iskustva za učešće

Stimulating the energy and enthusiasm of entrepreneurs to lead the charge with new climate-positive business models is a powerful way to address climate change across sectors and systems. We identify, support and invest in entrepreneurs through every stage of innovation, helping them move from initial concepts, through testing and demonstration to achieve commercial scale.

Our programmes have supported more than 2,000 start-ups, making the EIT Climate-KIC start-up community one of the largest worldwide. Our start-ups are leaders in their fields. In the last three years, almost 20 Climate-KIC backed entrepreneurs have been honoured in the [Forbes 30 Under 30 Europe](#) list.

Explore our ideas competitions Climate Launchpad and Climathon, and business incubation programmes Greenhouse and Accelerator below.
